In addition, championship points will also be awarded to registered drivers based upon their heat finishing positions. Drivers will score 40 points for 1st place in a heat, 36 points for 2nd, 34 points for 3rd, 33 points for 4th and decreasing by one point per place until the maximum number of permitted entries to cross the finish line. i.e. 24th equals 13 points. A DNF will score last place finisher less 5 points. A DNS is last place finisher less 10 points. Drivers' points in the heats at any one race meeting will be totalled. Thus a driver finishing first in three heats will accumulate 120 points and a driver with a second and two thirds will accumulate 104 points.

'B' Final 1st to 4th place - 0 points. 5th place 69 points, 6th - 68, 7th - 67 points and decreasing by one point per place until the maximum number of permitted entries to cross the finish line.

All drivers who are fully paid up card holding full members of Camberley Kart Club will receive points for the positions that they finish their respective races, as detailed above for the championship. If a non-member (or non-members) finishes in front of a club member then those points will not be inherited by the club member (or club members) who finish in the place or places behind.

(So for instance if a non-member finishes 1st and a club member finishes 2nd then the club member will only get the points for the second place and not inherit the winners points). Non-club members WILL NOT be included in the championship.

A DRIVER who has been disqualified from a heat or final at any given meeting, other than as stated in 2.1.1. and 2.2.1 will not score any points in that heat or final and must count that zero points in both heats and finals as one of their 6 scoring rounds.

If a driver competes in more than one class their points will not be added together.

In the event of a final not being run, the final results will be determined by the starting grid positions for the final based upon as many heats as have been completed.

Where a race includes more than one recognised kart class the results and championship points will be scored for finishing positions as though they were separate races.

At the end of the season points scored in drivers' 6 best finals and 18 heats) will be added together. Finals points and heat points do not have to have been scored on the same day. A driver could for example discard their heats from different rounds to the rounds that their finals were discarded from. The driver with the highest points for the season (after the calculations have taken place) will finish first. The next highest second and so on.

1.6.2 Ties will be decided on the standard count back system. Number of final wins, then final seconds etc. In the event of there still being a tie the first final winner will be deemed the winner.
