Re: Awarding of trophies

In response to feedback from club members and discussion by CKC committee a proposal was submitted to alter the way in which the number of available trophies is determined. The voting was unanimous and it has therefore been agreed that race day trophies will be awarded for each class according to the number of race entrants in that class.

The awarding of trophies will be determined as follows:-

One trophy will be awarded for every four entrants in each class.

i.e.

If there are one to four entrants then a 1st place trophy will be awarded

If there are five to eight entrants then a 1st and 2nd place trophy will be awarded

If there are nine to twelve entrants then a 1st, 2nd and 3rd place trophy will be awarded

Similarly for numbers exceeding twelve entrants.

An additional 1st novice trophy will also be awarded for those classes that have novice drivers participating.

We trust that this assists with understanding the number of available trophies for each class on race day.

We will of course continue to monitor race entry numbers and listen to the opinion of members to ensure that we have enjoyable, competitive and rewarding competition.
